LA COUNTY Legislation to prevent seabed mining signed by governor Monday, Governor Newsom signed Assembly Bill (AB) 1832, the California Seabed Mining Prevention Act, authored by Assemblywoman Luz Rivas (D- San Fernando Valley). AB 1832 safeguards more than 2, 500 square miles of the state's seafloor by protecting not only marine life, but tourism, ocean recreation, and fishing industries that contribute over $27 billion annually to our economy. With today's action, California joins Oregon and Washington to create a west coast coalition of states committed to protecting its ocean life from environmentally devastating seabed mining practices. "We don't need to wait for another disaster to occur when we can take steps to prevent it from happening in the first place, and that is exactly what my legislation does. Our oceans and marine wildlife face existential threats due to industrialization, plastics, climate change, and ocean acidi-fication. Deep sea mining would have severe implications on our marine ecosystem," stated Rivas.
